PROFESSIONAL SUMMARY

Aspiring Full-Stack Software Engineer with hands-on experience developing modern web applications using React.js, Node.js, Express.js, MongoDB, and AI technologies. Skilled in building responsive user interfaces, REST APIs, authentication systems, and AI-powered applications. Passionate about solving real-world problems through software engineering and continuously learning emerging technologies.

PROJECTS

EduMind AI - AI-Powered Study Assistant | Full-Stack Developer | 2026

- Developed a MERN-based AI learning platform that converts YouTube educational videos into summaries, notes, flashcards, quizzes, and AI chat.
- Integrated Google Gemini AI for intelligent content generation and contextual learning assistance.
- Implemented JWT authentication, transcript processing, and personalized learning workflows.
- Built responsive UI and RESTful APIs for seamless user experience.
- Designed scalable database schemas to support multi-user learning sessions and progress tracking.

Tech: React.js, Node.js, Express.js, MongoDB, Gemini AI, JWT, Tailwind CSS

Quick Stay - Hotel Management Web Application | Full-Stack Developer | 2025 - 2026

- Developed a hotel booking platform for customers and hotel owners.
- Implemented authentication, hotel management, booking history, and availability tracking.
- Integrated Stripe payments and automated email notifications.
- Deployed application using modern cloud deployment practices.
- Designed an intuitive admin dashboard for hotel owners to manage listings and track revenue.

Tech: React.js, Node.js, Express.js, MongoDB, Stripe, Clerk, Tailwind CSS, Vercel

Repository: [GitHub](#)

Curtain House Management System | Full-Stack Developer | Aug 2025 - Oct 2025

- Designed a complete POS and inventory management solution for a curtain retail business.
- Developed modules for sales, inventory, employees, expenses, orders, and billing.
- Improved operational efficiency through centralized business management.
- Implemented responsive UI and secure backend services.
- Enabled real-time stock tracking, reducing manual inventory errors and reconciliation time.

Tech: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

Juice Bar - Scroll-Driven Animated Web Experience | Front-End Developer | 2026

- Built an animation-focused landing page using GSAP and React.
- Implemented ScrollTrigger animations, parallax effects, pinned sections, and scroll-synced video playback.
- Optimized performance across desktop and mobile devices.
- Created a modern storytelling experience through advanced UI motion design.
- Fine-tuned animation timing and easing curves for a smooth, natural feel across breakpoints.

Tech: React.js, Tailwind CSS, GSAP, Vite, Vercel

Live Demo: [View Live Site](#)

EXPERIENCE

Quality Assurance (QA) Technician

Global System Solutions – Kurunegala | Oct 2024 – Mar 2025

- Analyzed and labeled retail product images for AI-based image recognition systems.
- Annotated product datasets with high accuracy to support machine learning model training.
- Maintained quality standards and consistency across large-scale datasets.

TECHNICAL SKILLS

Languages: JavaScript, Python, C#

Databases: MongoDB, MySQL, SQL Server

Frontend: React.js, Angular, HTML5, CSS3, Tailwind CSS

Cloud & Deployment: AWS, Vercel

Backend: Node.js, Express.js, REST APIs

Tools: Git, GitHub, Postman, VS Code

AI & Authentication: Google Gemini AI, JWT Authentication

EDUCATION

HND in Computing and Software Engineering (Pearson)

Esoft Metro Campus, Kandy | 2022 – 2024

Diploma in Information Technology (Pearson)

Esoft Metro Campus, Kandy | 2021

Full Stack Developer Certification

University of Moratuwa (DP Education)

CORE COMPETENCIES

Full-Stack Development • REST APIs • Database Design

AI Integration • JWT Authentication • Responsive UI

Git/GitHub • Cloud Deployment • Agile Development

LANGUAGES

Sinhala: Native

English: Intermediate
